**As easy as 123.** Whether you're upgrading to bigger equipment or trying to diversify your equipment arsenal, the Mongoose Model 123 can make it happen. Here's some of the key features of this unit:

**Electric Hose Reel** - Built to withstand the demanding working pressures of the drain cleaning business. The electric rewind feature is enhanced with a pressure controlled foot pedal. Includes capacity for 300 feet of 3/8" hose.

**Power Plant** - Our quality starts with the high quality 27 hp gas engine and the 12 GPM @ 3,000 PSI Mongoose™ M-Plex Run Dry Pump.

**Strong Frame** - Built with tubular steel for superior durability. The Mongoose Model 123 can be trailer mounted or it can fit into the bed of most full size pickup trucks.

**Pre-Painted Sub-Assemblies** - Integral to the design of the Model 123 Trailer Jet. This design not only creates superior fit and finish, it also makes the Model 123 the most corrosion resistant 150 gallon trailer available.

**NEMA 4 Controls** - Easy to use controls are located at the operators positions in a NEMA 4 military grade control panel.

**Standard Accessories** - Every Model 123 Trailer Jet comes standard with hose, nozzles, tool box, a complete accessory package and the industry's best warranty.
